Vienna
de luxe

Voted most popular fully automatic machine, the Vienna De Luxe is the best selling fully automatic espresso/coffee maker on the market. With an elegant silver finish, a convenient swivel base, and the Rapid Steam® feature making cappuccino, latte or any other coffee is a snap.

The innovative Rapid Steam® feature allows you to froth and brew without waiting or changing the temperature. A dream come true for all cappuccino and latte lovers! The Opti-Dose® adjustable doser feature enhances the flexibility to make your perfect cup of espresso coffee, cappuccino or latte. Not only can you adjust the fineness of the grinding and level of coffee brewed, but also the amount of ground coffee used to make each individual cup from 6 to 9 grams. The Vienna De Luxe is an excellent, inexpensive fully automatic machine that is a must for any home.

Bullets:

- Push a button: from bean to cup at the push of a button;
- 15-bar pressure: Automatic pump driven machine utilizing the best technology to extract the richest coffee aroma;
- Adjustable built-in conical burr grinder, with anti-gravel device and auto shut off;
- Saeco Opti-Dose®: Adjustable 6-9 grams doser to regulate the amount of ground coffee to brew and therefore the strength of the beverage;
- Simple push button technology with dial display to set from a 2 to 8 oz cup of espresso/coffee;
- Saeco Aroma System®: a programmed hot water injection into the freshly ground coffee, in order to soak the coffee and allow it swell up, immediately before the start of the brew cycle;
- Saeco Easy Clean System®: Patented exclusive Saeco brewing unit, easily removable for chemical-free cleaning;
- Rapid Steam® feature: no waiting time between brewing an espresso and frothing milk;
- Steam and hot water wand with Pannarello frothing device: for manual frothing or hot water dispensing;
- Removable transparent 57oz water tank with handgrip;
- Swivel base for convenient rotation;
- Removable drip tray and waste box for quick, easy cleaning.

Features and Benefits:

An Italian Barista At your fingertip:

Fancy a coffee? Push a button! By doing so, the machine will automatically grind the right amount of coffee, tamp it, brew it and dispense the used grounds into a dump box.

Pump System:

The Vienna De Luxe features a powerful pump rated at 15 bars (217.6 psi) of pressure. The Italian coffee making tradition requires steady pressure to produce first class espresso and coffee. Only in such a way can the water plow through the finest coffee grounds, for the perfect extraction.

Conical Burr Grinder:

The Vienna De Luxe has a built-in conical burr grinder with eighteen different levels of grinding (0-fine, 18-coarse). Each burr is made of high quality tempered steel, which is meant to last the lifetime of the machine with little maintenance. The coffee bean hopper holds ½lb bag of whole beans.

Saeco Opti-Dose® Adjustable Dosing feature:

The Opti-Dose® system will allow you to change the amount of ground coffee used for each beverage from 6 to 9 grams. By adjusting the amount of ground coffee you will be able to change the flavor and taste of your coffee, from weak to strong, without changing the amount of water used to brew the coffee.

Adjustable beverage Volume:

The Vienna De Luxe has a brewing button and a simple dial display to determine the amount of coffee to brew. Turn the knob clockwise and you will pass from a short Italian espresso (2oz) up to a long 8oz Americano. If you want a double espresso, just push the button twice, and the machine will automatically brew two shots of coffee.

Adjustable Cup Dispensing Head:

The dispensing head can be easily raised or lowered to adapt to your size cup. Small 4 oz espresso cups up to large 8oz coffee mugs can fit easily under the adjustable dispensing head.

Aroma System® Pre Infusion Makes Great Espresso:

Thanks to this feature, it is possible to taste the full aroma of the coffee beans in every cup. A special programmed pre-brewing cycle injects a little hot water into the freshly ground coffee. This step allows the coffee to soak, and swell up. By moistening the grounds it maximizes flavor extraction to increase the crema of your espresso. The result: A superior cup of espresso or coffee with thick rich crema.

Saeco Easy Clean System®:

The heart of the Vienna De Luxe: the patented removable brewing unit. This is the device that allows the machine to work automatically. Here is where the coffee extraction takes place. The patented brewing unit can be extracted at the push of a button, for convenient rinsing and chemical free cleaning. The brewing unit is exclusive proprietary Saeco technology and one of the things that has made Saeco world leader in fully automatic coffee machines.

Rapid Steam®,:

The Rapid Steam® feature allows you to steam or froth milk with no waiting time after brewing your espresso. The Vienna De Luxe heats water for coffee or generates steam in less than 10 seconds. Such technology provides long running steam to froth milk as long as there is water in the water tank.

Steam and Hot water wand with Exclusive Pannarello Frothing device:

The Vienna De Luxe has a steam wand located on the front of the machine, which will also produce hot water for tea or any other hot water based drinks. The Pannarello allows easy frothing and perfect foam with no hassle.

Removable Water Reservoir:

The Vienna De Luxe makes it easy to refill the water reservoir by allowing you to add water while still on the machine, or by removing the reservoir with the easy grip handle. The reservoir is made of clear ABS plastic, which allows you to see how much water is remaining in the tank.

Swivel Base:

A swivel base has been placed on the base of the machine to simplify even further general maintenance and cleaning. The machine will turn from side to side with a light push so that there is no need to lift or move the machine itself.

Internal Dump Box For used Coffee:

The dump box is where the machine stores the used coffee grounds. The dump box is easy to remove and clean, just dump the coffee and clean with hot soapy water. Not dishwasher safe.

Slide Out Drip Tray:

A single drawer slides out from the front of the machine. The drawer contains the cup tray and a drip pan. Made of durable plastic, it cleans easily in soap and water. Not dishwasher safe.

Accessories Included:

Cleaning brush for coffee grinder, brew group maintenance kit, instruction manual and video.

Product Specifications:

UPC:	7 08461 03002 3
Color:	Silver
Body:	Material Molded ABS Plastic
Warranty:	12 months parts and labor
Power:	1250 watts – 120 volts – UL listed
Weight:	Machine: 19 lbs Box: 23 lbs
Size:	Machine: 13” H x 15” W x 13” D Box: 15.5” H x 18” W x 15.5” D
Origin:	Italy
